Torture Track 3

A Monster Truck Madness track by Kmaster

So I thought you guys needed a more hardcore track to race on... Oh yes! someone HAD to bring back all the cruelty of MTM1, the crushable cars, the insane ramps, logs on the road, falling signs, annoying collisionable trees... ya know. I'm bored of all the straight-a-way racing.. "let's bring back all the narrow turns and big bumps!"
If I had more time to finish the track.. I would probably add more trees (hehe) that's right, I LIKED the way this track turned out, I don't have any regrets. Oh and trust me, you're gonna crash, you're gonna get mad, you're gonna roll over... . And that's why I absolutely love this track. By the way, if you're a real man, turn the music on!

As much as I hate shortcuts, a cheater told that It would be a nice idea to add some. I say.. Ha! YES I DID add some.. but they're for real tough guys, so go make your own way to the finish line!

For this track I took inspiration from Torture Track 2, Mud Pies, the MTM2 track Torture Pit and the former Mayhem vocalist Euronymous, haha.

Nice lap times are under 2:45~40. Oh and racing this track offline is a blast.
